T77

DISCOVER THE NEW TOUCH OF LUXURY

LIGHT AND SHADOW SCULPTED PIONEER FACE

The hexagonal shape of the front grille inherits the genes of the Pentium family. It adopts a concavely curved-forward design, and through the turning of the profile, it brings changes in light and shadow.

Exterior

① THROUGH-BODY GENTLEMAN TAILLIGHTS

The design of the rear taillights adopts a square three-dimensional additional mask structure, which is transparent, showing the beauty of the rear taillights. The light guide position uses an integrated light source design, which greatly improves the sense of technology, grade and space of the vehicle.

② DOUBLE T-TYPE LED HEADLIGHTS

The characteristic line of the bright light inside the headlight runs through the whole light and

echoes the bright light of the front grille. The linkage shape of the eight square lens groups in the middle matches the surrounding decorative strips, making the whole light full of inspiration and sense of technology.

③ DIGITAL RAINDROP FRONT GRILLE

The front grille part adopts digital raindrop design, 90 raindrops, to be exact. Each diamond-inspired raindrop is cut independently and aligned meticulously, giving you a feeling of driving luxuriously.

STREAMER PLASTIC BACK SHAPE

Flowing light and shadow changes combined with the diamond-cut profile design show the future in the interlacing.

4 LIGHT AND SHADOW FOLDING DESIGN, CONDENSING THE BEAUTY OF INGENUITY

Light and Shadow Science:
The Turning Impressions

Streamer glances, see the corners, the floating roof design and the stylish features of a moderate back. In the perfect coordination of toughness and golden ratio, the three-dimensional design of the sculpture is used to strengthen the visual three-dimensional feeling.

6

Exterior

6 **THROUGH WAIST LINE**

The golden ratio design of the window and the body allows the T77 to show the changing beauty in the flow of light and shadow when driving.

7 **LOW WIND RESISTANCE
SUSPENSION MIRROR**

Suspended one-piece design can effectively reduce the wind resistance coefficient and make the shape more fashionable and dynamic.

8 **INNER CASTING AND
OUTER MILLING DOUBLE
COLOR WHEEL**

The classic double and five auxiliary shapes, in the combination and turning of the lines, elegance and strength coexist, both dynamic and static.

7

8

DIAMOND BODY CURVE

The curve goes from the face in the front all the way to the sides and tail, creating a clearly layered light-shadow effect. A waistline lower in the front and higher in the rear that looks sportier causes the distance between the windows and the doors to be in golden ratio, so that a three-dimensional effect and a stronger visual shock are produced.

Interior

The vast interior of the T77 is a marvel of cabin architecture for automobiles. Spacious seating is standard and ample head, shoulder and legroom are built to carry 7 adults in first-class comfort, whether driving around the city or commuting on a long day.

① LIGHT LUXURY INTERIOR

Ring: The interior is designed from the door guard to the instrument panel as a whole, which maximizes the interior space.

Thin: The lightness of the instrument panel as a whole changes peoples's inherent conception of the thickness of the SUV instrument panel.

Light: Lightweight overall interior vision.

Suspended: The detail design adopts the suspended design, which hides the gaps between the parts and becomes the perfect combination of form and function.

② DEDICATED TO LUXURY TRAVEL

The new T77 offers greater comfort and convenience than ever, from a leather-cut interior to fine stitching of its available leather-appointed seats to its meticulously crafted fit and finish. The refined T77 interiors combine sleek styling with the ability to pamper both drivers and passengers.

| TRUNK VOLUME 391L | |
|--------------------|---------|
| Max opening height | 711 mm |
| Max opening width | 1020 mm |
| Max depth | 900 mm |

③

③ LARGE STORAGE SPACE

The rear seats lie down, presenting extra storage space. Generous cargo space with a fold-flat second row and expanded baggage compartment becomes even more roomy. Whether you are running errands or wandering throughout the world, the T77 has room to spare.

④ DOUBLE 12.3-INCH PENETRATING THE LARGE SCREEN

Instrument screen, entertainment screen, can achieve dual screen interaction, relaxed experience at your fingertips.

④

Interior

① STREAMING MEDIA REARVIEW MIRROR

The wide-angle camera at the rear of the car provides ultra-long distance images. Compared with traditional rearview mirrors, the field of vision in bright light, rain, and night is more clear.

② ELECTRONIC SHIFT LEVER

The intelligent fusion of sense of technology, comfort, and control, convenient and labor-saving operation, precise shifting feel, and enjoy the free switching of forwarding and backward rhythm.

③ THROUGH INTEGRATED CENTER CONSOLE

Breaking the clear boundaries between the main driver, central control, and co-driver, the overall visual effect is natural. The dual 12.3-inch penetrating large screen abandons the traditional design of the traditional instrument screen. The screen resolution reaches 1920 x 720 dpi.

④ PANORAMIC SKYLIGHT

With more daylight, the field of vision increases, and the feeling of depression in the back row lessened.

⑤ THREE-SPOKE MULTIFUNCTION STEERING WHEEL

D-type three-frame sports design, wrapped in pure imported Alps top calf leather, multiple function keys, so that everything is within reach, safety and comfort coexist. a whole changes peoples's inherent conception of the thickness of the SUV instrument panel.

The image shows the front interior of a car, viewed from a high angle. The seats are black leather with orange stitching and orange vertical accents on the seatbacks. The dashboard and center console feature wood grain trim. The steering wheel is black with a silver logo in the center. The car's body is painted a bright yellow. The text "EMBRACING LUXURY SPACE" is overlaid on the left side of the image.

EMBRACING LUXURY SPACE

Following the golden ratio design composition, with a full range of superb craftsmanship quality, to create a large and comfortable interior environment, so that the driver is physically and mentally relaxed, driving freedom.

HOLOGRAPHIC INTELLIGENT CONTROL

The T77 builds a holographic intelligent control system to make driving control unique. Equipped with intelligent driving control system and a variety of auxiliary functions to bring a new travel experience.

AUTOMATIC PARKING SYSTEM

Accurate parking made simple. For parking in a parking lot, the system automatically searches for a parking space and helps the driver park easily in and out with a simple touch on one key.

REMOTE PARKING ASSISTANCE

The vehicle automatically moves when pressing a remote button. The system allows for automated parking to drive in and out of designated parking spaces. Even spaces so small that they'll barely open the car doors will soon be no hindrance.

SMART HOME SYSTEM

Smartly connecting multiple brands of smart homes can achieve remote control of home appliances, so life is more convenient.

INTELLIGENT VOICE INTERACTION

Is a smart speech assistant capable of learning and adapting to user behaviors, interests and meaning. By doing so, it makes drivers engage less distractingly with the car, bringing user experience to next level.

MOBILE FLYING SCREEN

Mobile flying screen technology lets you interact with your phone and the 12.3 inch LED screens wirelessly, viewing your photos on the screen displays on the go.

Speed, Power, Fluid.

LENGTH 4525MM WIDTH 1845MM HEIGHT 1615MM MAX SPEED 181KM/H

Power

① **MACPHERSON INDEPENDENT SUSPENSION**

Gives the vehicle excellent handling stability while improving ride comfort.

② **DIRECT INJECTION TURBOCHARGED ENGINE**

4GA series high-performance engine, considering both high power and economy, the maximum net power / speed of the engine: 100 kw / 5500 rpm, the maximum net torque / speed: 204 Nm / 1600 - 4200 rpm.

③ **7-SPEED DCT WET DUAL-CLUTCH TRANSMISSION**

It has the advantages of light weight, high accuracy, smooth operation, low noise, leading handling performance, and brings you good operating feel and excellent fuel economy.

 **BorgWarner**

Safety

① TIRE PRESSURE ALARM SYSTEM

Equipped with a direct tire pressure monitoring system to monitor tire pressure in real time through tire pressure sensors and controllers in the wheels. When the tire pressure is too low and the air leaks quickly, the tire pressure alarm lamp and the instrument screen tire pressure value alarm are used to prompt. Escort for driving safety.

② REINFORCED 3H STRUCTURE BODY

The body structure adopts 3H framework design technology, which ensures the members' safe and prudent solid structure.

③ FORWARD COLLISION WARNING SYSTEM

The radar system constantly monitors the vehicle in front, judges the distance, orientation and relative speed with the vehicle in front, and warns the driver when there is a potential collision danger. handling performance, and brings you good operating feel and excellent fuel economy.

④ BOSCH ESP 9.3 GENERATION SYSTEM

Equipped with Bosch ESP 9.3 generation system to realize: forward collision warning,

road deviation warning, intelligent high beam control and other functions.

⑤ ROAD DEVIATION WARNING

The front lane camera is used to identify the lane lane on the road ahead, and to detect the lateral position of the vehicle in the current lane in real time. When an unintentional lane departure is detected in the current lane of the vehicle, visual and acoustic warnings are provided to the driver.

⑥ INTELLIGENT HIGH BEAM

When encountering situations such as meeting cars, following cars or street lighting, it will automatically complete the intelligent switching of far and near lights.

6 AUTOMATIC PREMIUM TYPE AIRBAGS

The front double airbags, the front seat side airbags, and the side double side air curtains effectively protect the driver and passengers, and intimately guard every trip.
